

Negaye Fikadu

ERP Functional Consultant | Odoo Technical & Functional Specialist

Addis Ababa, Ethiopia | negafika17@gmail.com | linkedin.com/in/negaye-fikadu

PROFILE

ERP consultant and Odoo specialist with 5+ years of experience across the full implementation lifecycle — requirement gathering, workflow mapping, configuration, training and post-go-live support. Bridges the gap between business processes and technology, with a published app on the Odoo App Store.

WORK EXPERIENCE

Functional Consultant

[Addissystems PLC — Addis Ababa](#) | Mar 2026 – Present

- Lead requirement-gathering workshops and map business workflows to Odoo functionality.
- Configure financial, supply chain and HR modules; primary liaison between clients and developers.
- Develop training materials, conduct end-user training and provide post-implementation support.

Consultant

[Edomias International PLC — Addis Ababa](#) | Sep 2025 – Mar 2026

- Oversaw a critical system configuration update: analyzed the setup, identified inefficiencies and executed a seamless reconfiguration.
- Designed tailored training programs and delivered post-launch support for every team.

ERP Implementer

[Ashewa Technology Solution S.C. — Addis Ababa](#) | Jan 2025 – Aug 2025

- Analyzed business requirements; configured and customized ERP modules.
- Integrated third-party systems, migrated data and provided user training.
- Ensured smooth implementation through testing and post-deployment support.

Associate Functional Consultant

[Red Cloud ICT Solutions — Addis Ababa](#) | Nov 2023 – Jan 2025

- Supported ERP implementations end to end: configuration, testing, documentation and user enablement.

Assistant / Junior Functional Consultant

[CNET Software Technologies PLC — Addis Ababa](#) | Oct 2021 – Oct 2024

- Assistant Functional Consultant (Nov 2022 – Oct 2024): configured workflows and reports; supported data migration and go-live issue resolution.
- Junior Functional Consultant (Oct 2021 – Oct 2022): gathered requirements, prepared documentation and assisted in module configuration and testing.

EDUCATION

B.Sc in Electrical & Computer Engineering

[Addis Ababa University — Addis Ababa, Ethiopia](#)

- Engineering foundation in systems, electronics and computing behind an analytical approach to ERP.

CERTIFICATIONS

- Applied Data Science Specialization — IBM / Coursera
- Applied Data Science Capstone — IBM / Coursera
- Data Analysis Fundamentals — IBM / Coursera

SKILLS

ERP: Odoo (Community & Enterprise), Odoo Studio, ERP implementation, business process mapping

Technical: PostgreSQL, XML & QWeb, Python, data migration, system integration

Consulting: requirement analysis, training & documentation, reporting & auditing, data analysis

Languages: Amharic (native), English (fluent)

ACHIEVEMENTS

- Published 'Time Off Accrual Expiry' on the Odoo App Store (2026) — automates leave-expiry processing, carry-over and expiry tracking, with role-based access and independent balance reports.
